

# Winter Planting Calendar – Verdantly Guide

Plan your eco-friendly winter garden with this calm, month-by-month planting guide.

Discover when to sow, prune, and nurture beautiful blooms that thrive in cold days.

## December

- Plant **pansies** and **violas** in pots or borders
- Start **amaryllis bulbs** indoors for mid-winter blooms
- Protect garden beds with **mulch** and compost
- Trim dead stems and prepare soil for frost-hardy planting

## January

- Sow **sweet peas** under cover for early spring color
- Enjoy **hellebores** and **cyclamens** in bloom
- Check **frost protection** on sensitive plants
- Water pots lightly on frost-free days

## February

- Plant **primroses** and **early daffodils**
- Divide **snowdrops** after flowering
- Prepare beds for **spring bulbs**
- Feed winter blooms with **organic fertilizer**
